

1. Of the eight public TV stations (operating 11 total stations), which ones are currently utilizing BEMC's joint master control operation? What are the reasons cited by stations that are not using the joint master control? Also, is there data regarding viewership at the stations and how this has been changing over recent years, particularly with the advent of PBS mobile apps and Passport?
2. ALI 935430. In FY 2024, how much of the total request is for facility repairs and how much is for OARnet fiber backbone fees? How do these amounts compare to expenditures in previous years? What is the annual rental amount being paid to OSU for the North Star facility?
3. ALI 935410. Please provide additional information regarding COVID-19's continuing impact on underwriting and other local support.
4. ALI 935402. Over the past five years (or ten years if data is available), how much has been spent for video storage systems? How frequently does BEMC receive requests for video from the storage systems?
5. ALI 935401. What is the current staffing level? The requested increase will fund one additional full-time position?
6. Appendix K for ALI 935401. Is there data that can be provided for the FY 2019, FY 2020, and FY 2021 output and outcome measures?
